To Whom It May Concern:

Lincoln County Schools has had the pleasure of working with ALCOM SERVICES, Inc. for the past ten years. During this time, they have been involved in all of our new school construction projects, renovations, and E-Rate projects. We have used Alcom for a variety of services including network cabling, security systems, intercom systems, voice, VoIP, electrical work, and multi-media. Their work has always been excellent and done so in a timely manner.

I consider them to be more of a partner than that of just being a vendor. Allen Eaker and his staff have always been very professional. They have also been very accommodating in meeting our work schedule requirements.

I highly recommend ALCOM SERVICES, Inc. to anyone. Feel free to call me if you have any questions.

Sincerely,

Steven B. Zickefoose, MBA  
Assistant Superintendent  
for Business
